HOCHTIEF Facility Management Swiss has been awarded the contract to handle technical and infrastructural building management for the Swiss media company Tamedia at its facilities in Zurich and Bern. The two companies have signed a contract which will initially run for three years. It was agreed that no details of the contract volume would be disclosed.

Tamedia's headquarters in Zurich consist of six office buildings with a total area of over 40,000 square meters. The six buildings at the Bern facility have a total area of more than 15,000 square meters, containing offices and television studios. HOCHTIEF Facility Management Swiss will be operating, servicing and maintaining the technical systems of these properties. On the infrastructural side, it will also provide janitorial, gardening and conference room services and a 24-hour emergency service, and will deliver facility management services to accompany construction work. The central concept of the contract is the close networking of infrastructural building management with the cleaning and security services provider, so that HOCHTIEF Facility Management Swiss is providing all services from a single source.
